

23/09/19

Dear Parent/Carer,

In order to support your son/daughter with their maths lessons, we have maths intervention sessions after school every Tuesday 3:05 – 4:00. Students will need to bring with them topics that they would like extra support with. This could be something that they are currently working on in lessons or something that they have struggled with in the past. If students do not have anything in particular that they want to work on and want to come along to do extra maths then they will go onto the computer to complete Mathswatch work with the support of a maths teacher.

Year 7 and 8 will be based in D210

Year 9 and 10 will be based in D205

We have generally found that these sessions get full closer to the time of assessments. Due to this we would advise that students wanting the extra support attend these throughout the half term to ensure that they get support.

Many thanks

Miss Callow
